BUYING AN ENDORSEMENT.
An enormous campaign fund is at the disposal of the local Republican campaign committee and the candidates for county offices.
It is announced that the candidates for county offices have raised a fund of nearly \$10,000 to be used in behalf of their re-election.
A sum equally as large will be obtained from Hanna headquarters through the intervention of Col. Dick.
The determination is to carry Col. Dick's "home county" at whatever the cost.
Have the people ever wondered from what source this money comes? Practically every dollar of the money sent here by the Hanna State committee has been contributed by trustees which expect favors in exchange for assisting the Republican campaign committee. In turn the trusts are enabled to recoup themselves at the expense of the people in the form of exorbitant charges upon articles of whose manufacture the trusts have a monopoly.
The fund which the local Republican office holders have raised upon their account represents the exorbitant charges which they have been able to take from the people by reason of the defeat of the Russell Salary bill. Within the last two years, according to the estimate of Representative Russell, the people of Summit county have been made to pay these officials about \$80,000 more than would have been necessary had these officials been unsuccessful in defeating the Russell bill.
So when our Republican friends are

heard to boast of their splendid financial ability to carry on their campaign, tell them that every cent they are spending to promote their re-election represents just so much unjust tribute taken from the pockets of the people.
An endorsement, whether of an administration or official, that has to be bought and paid for like so much merchandise, does not count for much in the estimate of intelligent citizens.
While the people vote to endorse office-holding trusts, local, state or national—they must expect to be plundered by the trusts.

JESTING AT HONESTY.
One of the beneficiaries of the local Republican Machine makes fun of the resolution adopted by the Summit County Farmers' Institute, published in last week's DEMOCRAT, protesting against the exorbitant salaries drawn by Summit county's officials.
He says that "the farmers resolute against the high salaries but they don't vote that way. When the farmers go to the polls they forget all about their resolutions."

Auditor Sisler will not verify this light opinion of the situation. He says that the defeat of the Russell Salary bill cost him more than three hundred votes among the farmers of Summit county last fall.
High salaries county officials who rest in the fancied security that the farmers pay no attention to such things as the outrageous defeat of the Salary bill, may have to modify their conclusions after next week's election.

WILL OPPOSE THE TRUSTS.
The commercial travelers and hotel men of America have organized a league to oppose the trusts. Already the league has more than ten thousand members. Secretary William Hoge of New York, has just issued the following statement:
"There are now more than 500 trusts in the United States capitalized at \$8,000,000,000, although their actual capital is less than \$3,000,000,000. It is probable that they will continue to grow in numbers until nearly everything traveling men are employed in selling is placed upon a monopolistic basis. The result of this unparalleled movement will be the extinguishing of our craft. Distributors and consumers will have to buy from the trust, because there will be no one else to buy from. The salaries and traveling expenses of salesmen are needed to help pay dividends upon the watered stock. This will go on until the people take away the special privileges of all kinds, which alone enable them to reap unearned profits or to injure the public. This can only be accomplished by anti-trust agitation."

"There are said to be 350,000 commercial travelers in the United States. Each traveling man spends upon an average of \$5 per day, that is \$1,750,000 each day in railroad fares and hotel accommodations. They are bright, energetic, resourceful fellows, with flexible tongues, working the large cities and little villages, the thoroughfares and cross-roads, coming into conversational contact with operators of mills and mines, merchants, manufacturers and professional men, people in cities, towns and railway trains, and therefore if the commercial travelers and hotel men can be organized into an anti-trust agitation league the sphere of their influence will be almost unlimited."
The commercial travelers are going to break the evil influences of the trusts by supporting the Democratic party—whose representatives only are pledged and in a position to oppose the aggression of trusts. When the commercial travelers—who supported Major McKinley almost to a man in 1896—leave the Republican party for the reason that it is owned and controlled by the trusts, it is time for the people generally to vote against that party.

ASK ANY of the members of the Citizens' Committee of Fifty who were riding around the city in carriages last spring trying to hold refractory Councilmen in line for a telephone franchise that benefited the people, whether Judge Anderson was giving the Committee any assistance at that time. If Judge Anderson was so friendly to the

interests of the people during the telephone controversy and was not bidding for the support of both sides, why is it that he has no public utterance to his credit showing that he was really in sympathy with the cause of the people?
WHEN Akron's citizens were fighting to obtain their rights from the telephone monopoly last spring they did not notice that Judge Anderson was taking a very active part in the controversy in their behalf, but they did notice that whenever any of Judge Anderson's proxies on the Board of City Commissioners had a vote, they voted against the interests of the telephone users until waited upon by a delegation of Akron's business men and made to change their vote. No official should pose as friendly to the people's interests who has not befriended them when they needed his assistance.
THE Beacon censures Representative Kempel because he voted for Mr. McKisson in preference to Mark Hanna. Senator Vernon Burke, of Cleveland, voted against Mr. Hanna, too, and was a leader in opposition to him, but County Clerk Hershey and other high salaried Republican officials of Summit county had not a word to say about Senator Burke when they needed his help to kill off the Russell Salary bill. Burke was a good fellow then, so good that the high-salaried friends of Mr. Hanna could even go to the extent of putting their arms about his neck. Comment is unnecessary.

COUNTY CLERK HERSHEY did not have his arm around Senator Burke's neck when Burke was bolting Senator Hanna. It was only when Burke's influence was needed to kill off the Russell Salary bill that Mr. Hershey and other local disciples of Senator Hanna made any demonstration of affection for Burke.
IT WAS Senator Alexander who said a few months ago: "I shall vote for no man who will not allow Akron's City Commissioners to be City Commissioners." This brings the case pretty close to Judge Anderson.
WHAT has become of the Anti-Hiltabiddle club since Mr. Hiltabiddle "resigned?"
FIRST COMES FREEDOM AT HOME.
[Contributed.]
Farmers and wage-earners of Summit county, the question most important to you in this campaign and election is, not "What shall be done with the Filipinos?" or "Who shall govern those far off islands?" but "What shall be done with the United States and who shall govern the American people?"
Shall the government of the United States be a government of the people for the benefit of the people, or a government of Bosses and Trusts for the benefit of the Bosses and Trusts?
This is the issue which most concerns every farmer and wage-earner. No one who consults his own interest and that of his family and country can honestly and conscientiously vote for men whom he knows to be in favor of trusts or trust makers.
Senator Hanna calls trusts "combinations of capital," and says they are a benefit to the country and people. Does any farmer or wage earner in Summit county believe what Mr. Hanna says, and will any one vote with Hanna to sustain the trusts?
Is there a farmer or laborer who can say that the general era of better times which prevails throughout the whole world has benefited him to a fair proportion of what it has benefited trusts?
Every farmer knows that the prices of farm products are about the same as they were a year ago, but that all kinds of trust products have nearly doubled in price.
Is there a farmer anywhere who is willing or who can afford to sell his farm products at the old prices and pay the trusts double prices for their products, such as wire fencing, nails, lumber, window glass, farming machinery etc?
The same is equally true of wage earners. He is still selling his wages at practically the same old price, but has to pay the trusts doubly for what he has to buy from them.
The farmers and wage earners should not be deceived by false appeals to patriotism or shouts of prosperity. Let them heed the voice that appeals to their own common sense and reason and unite their forces in casting their votes against bosses and trusts.

Let them follow the advice of Senator Washburn, Minnesota's prominent Republican, who says: "No man should be in office who is in sympathy with the trusts, or trust makers. The people can easily identify these men. And if the voters are properly aroused there will be no doubt of what they will do."
They will cast their ballots against bosses and promoters of trusts. They will break the heartless reign of cruelty and injustice in our own country before they interfere with the liberties of a half civilized people in a far off country. They are determined that Old Glory shall be the emblem of freedom to our own people; the banner of a government of the people, by the people and for the people, before they dispute about what our government's policy should be in the Philippines.
Give us liberty and freedom here from the reign of political kings and bosses, trusts and combines.
Let the people be free to rule this country under the stars and stripes.

and the freedom of the Filipinos will be at once secured. The flag that is an emblem of freedom to our own people will mean the same to the Cubans and Filipinos. But first let us make it an emblem of freedom.

TWO TEAMS
Claim the Grounds.
Fight for Possession of
Buchtel Field.
Leased Without Consent
of Students.
Dennison Wants Another Chance
at Art Simms.
Athletic Entertainment Arranged—
Local Sporting News.

There is a lively fight in progress for possession of the Buchtel college grounds Thanksgiving day.
Dr. R. B. Carter, of the Kirkwood club, has a lease for the grounds, given him by Secretary Olin of the college. He made an offer for that date, it was accepted and the money paid.
Since then the college boys have organized an eleven. They have closed a date with Mt. Union for a game Thanksgiving day. They claim that the endowment for the purchase of the property was given with the understanding that it was for the use of the students, and that the college authorities had no right to lease it to outsiders until it was known that they did not want it. The Elks and Kirkwoods have the lease, however, and intend to hold Mr. Olin to his contract.
Games Abandoned.
All the games scheduled for the city Saturday were postponed because of rain. The Oberlin High school team, which was to have played the A. H. S., reached the city but the captains of the teams decided to abandon the game.
Athlete Exhibition.
The North End Athletic club has completed arrangements for an athletic entertainment to be given in the Grand Opera house Wednesday evening, Nov. 8. The program will be made up of four bouts, as follows:
Art Simms and Carley Supples, of Buffalo, eight rounds; Jack Palmer, of Akron, and Ed. Forman, of Canton, six rounds; Jack Foteh, of Canton, the man Simms put out in two punches, and Chas. O'Donnell, of Akron, six rounds; Fred Colley and Jack Detrick, both of Akron, four rounds.
It can easily be seen that the material for the entertainment is good.
Preliminary.
Chas. O'Donnell and Jack Detrick both of Akron, weight 133 pounds, will fight ten rounds as a preliminary to the "Kid" Lloyd-Simms go at Massillon.
Boxing School.
Art Simms has purchased a half interest in the Bank saloon on East Market st. He will open a boxing school in the rooms above the saloon. It will be equipped with all the appliances of a first class gymnasium. Shower baths will be a feature. Simms is one of the best boxers in the state. He should prove an excellent instructor.
Bowling Teams.
The Columbia Bowling club has been organized with 30 members. It will play any team in the city. Address all communications to Philip Zeller, 201 Zeller st.
One Sided Game.
The North End foot ball team easily defeated the Indians Sunday afternoon at Summit Lake park by a score of 16 to 0. The North Ends were too heavy for the Indians and made most all of their gains on backs and end runs. "Buck" Washer of the Indians, put up an excellent game.
Thorne Knocked Out.
Bob Fitzsimmons demonstrated Saturday night that there are several good fights in him yet. He knocked out Jeff Thorne, the English middle weight in one minute of fighting at Tattersall's hall, Chicago. It was a long time before he recovered.
Wants Another Chance.
Johnny Dennison of Cleveland, is not satisfied with the defeat he met at the hands of Art Simms. He wants another chance, just one more. The following appeared in Sunday's Plain Dealer:
"Sporting Editor—Sir: I am not at all satisfied that Art Simms is my master and would like to meet him at 125 pounds, at which figure I am conceding him at least three pounds. I made my last match with him at 126 pounds, but he scaled at over 130, a handicap too big for me to overcome. I went on at Rockport against the advice of my friends when I found that Simms was overweight, but did so rather than disappoint the audience."
"J. DENNISON.
"Cleveland, Oct. 28."
Over Anxious.
It looks as if the Akron friends of

Art Simms want to push that promising young pugilist along a little too fast, says the Cleveland World. Simms is young and should wait a little before he meets the top notchers. He is clever, but there is a whole lot he doesn't know about the ring. A year of fights with third and fourth-raters will put Simms in better shape to meet the polished ring generals of the east and west. If he has it in him his friends needn't fear that he will lose anything by waiting.
In the meantime, a lot of local men, as well as the Akron crowd, would like to see Simms pitted against some one who could give him a better try-out than Dennison. The Rockport A. C. is likely to put him on for a 15 or 20-round bout with a strong local man during the early winter.

Drink Grain-O
After you have concluded that you ought not to drink coffee, it is not a medicine but doctors order it because it is food. It is invigorating and appetizing. It is made from pure grains, and has that rich, smooth, creamy color and taste like the finest grade of coffee, and costs about one-quarter as much. Children like it and thrive on it, because it is a genuine food drink, containing no stimulants, but nourishment. Ask your grocer for Grain-O, the new food drink. 15 and 25c.
